

JEFF JANZEN

**Candidate for
Regional Director**

As your Regional Director and as a Board member, I will bring to the Board no hidden agendas. I will listen carefully and treat your vote with respect. With your input, together our vision and actions will build on the Gulf Shore Region's strong foundation for a bright, cohesive and progressive future.

Professionally, I maintain a B.S. in Pharmacy from the University of Kansas. Practicing in both private and corporate settings, my responsibilities have included:

- Making and meeting a strict, comprehensive budget
- Researching and developing pharmaceutical formulas for veterinarians, zoos, physicians, and naturopaths
- Building and executing marketing plans for products and services
- Managing employees by using positive feedback and reinforcement
- Interacting with patients in a compassionate and caring manner

I show OPC's (Other People's Cats) with my partner of 31 years. From the time we registered our cattery, Hautechat in 1990, I have been involved in every aspect of show production. Currently I am an approved allbreed judge.

My goals for our Region include:

- ✓ I am always available for the Region as I do not, at this time, judge overseas
- ✓ I will vote and fight for you at the Board table, as the majority of the Region directs me to
- ✓ Together we will build our treasury. We are hosting the 2021 Annual in Houston. For those of you that attended The New Orleans Annual, you know the bar is set high and, as a Region, we cannot fail by coming up short.
- ✓ With the impending retirement of Joe and Caroline, who have been providing cage service for our numerous shows, we must immediately address this critical concern. For many years, without success, the Region has been actively searching for an affordable replacement service that can provide a turnkey resolution for the whole Region. I am open to your ideas and suggestions on this urgent topic.

To exhibit your trust in these goals and to steer the Region on the right path, please vote for me and together we will bring fresh and new ideas to our Gulf Shore Region.
